

Companies,

join **POLYTECH Montpellier**
as partners

QUALIFIED ENGINEERS

- 20% of our courses are taught by **outside experts** from the socio-professional world.
- Three engineering specializations are offered via an apprenticeship program with **work-study alternation**.
- **Vocational contracts** enable students to split their time between school and work at a company in their last year of the engineering program.
- 80% of our students have **a job by the time they graduate**.
- POLYTECH engineers benefit from scientific and technical training enhanced by management, project management, Quality assurance, and sustainable development courses, making it easy for them to **adapt to general corporate issues**.
- The school generates **200 projects and 900 industrial internships per year**.
- **Organizing events is part of our students' training**: Polynightwork, Startup Weekend, Agile Tour, Water Seminar, Materials Days...
- Every year, five or six POLYTECH students launch projects to create innovative companies. Former POLYTECH students have created over 220 companies, half of which were founded within the past ten years.

TAKE ON AN INTERN OR AN ENGINEER

■ **Post your** internship or job offer on the Poly+ platform <http://poly.polytech.univ-montp2.fr>

■ **Give your next employee a try** by working with him or her through a work-study contract, internship, end-of-year project, vocational contract, or CIFRE thesis. Get up to 42 months of potential collaboration before hiring.

■ Meet your next team members by participating in one of the **many events** organized by POLYTECH:

- ROUND TABLES
- STARTUP WEEKENDS
- PARTNER EVENINGS

■ Leverage our **network of 8,000 graduates** by contacting Polytech Connect, the school's alumni association: www.polytech-connect.com.

LET US HANDLE YOUR R&D PROJECT

■ Our students can take charge of your R&D project as an industrial project or **CIFRE thesis**.

■ Most of POLYTECH's 150 professors are also **researchers with cutting edge experience** in their fields. They bridge the gap between the students' course material and the latest, most innovative research work carried out in our 14 partner laboratories (CNRS, CIRAD, IRD joint laboratories, etc.)

■ Every year, our research-professors sign over **30 research agreements** within POLYTECH.

JOIN US AND SUPPORT THE SCHOOL

■ Our **Partner Club** is comprised of prestigious partners: IBM, Intel, La Poste, Schneider Electric, Total... Why not you too?

■ Get your company involved with our school's training and teaching by choosing to apply your **apprenticeship tax** to POLYTECH Montpellier.
